When did you work with the project

We worked with this sprint during our weekly meeting, and home after school.

Sprint goal

Translate webpages into react. Continue to work on backend and backend security. Make wireframes for admin and profile page.

Work distribution

We will translate webpages individually for the pages we've made. And continue to work with backend together. Wireframes will be distributed during meeting.

Accomplishment

We've made the wireframes for admin and profile page. We've started translating the webpages to react, but there is still a lot of work to do. And we have progressed on backend and backend security.
