When did you work with the project

This sprint report is for week 4.

Sprint goal

Plan when we are going to have weekly meetings, what we are going to do next week, and plan how we will work with sprints.

Work distrubution

We solved this goal together as this sprint only was about planning future work together.

Acclompishment

We solved this during lecture hours, and decided to meet every Thursday at 12. We know eachother from earlier tasks and therefore did not plan for any teambuilding exercises etc. We've decided to have weekly sprints.
